Stitch tutorial

Beads:

Start your stitch using the loop method. Thread your bead through the first diagonal stitch of your cross-stitch. For the second diagonal stitch, separate the 2 strands and keep them on either sides of your bead. This will ensure that it stays tight and upright. You can stitch individual beads in this way, or rows.

Diamond Eyelet stitch (with sequin):

Start with a diagonal line (rather than vertical), and work clockwise from the outside of the diamond shape towards the inside (because of the sequin, it's easier to fit your needle through the middle from the front of your work than from the back).

Terms and Conditions

Thank you for purchasing this design. I hope that you will enjoy stitching it as much as I enjoyed designing it.
