230							
240							

The grid shows a distribution of data points across a range of values. The color scale indicates the magnitude of the data, with white being the lowest and black being the highest. The most significant feature is a large yellow cluster centered around row 220 and column 20. To its right, there is a small red cluster. In the lower-right portion of the grid, there are several smaller clusters of yellow, orange, and red. The rest of the grid consists primarily of white and light gray cells.

This figure displays a 2D grid of data points, likely representing a sparse matrix or a specific dataset. The horizontal axis (columns) is labeled at the top with values 150, 160, 170, 180, 190, 200, 210, and 220. The vertical axis (rows) is labeled on the left with values 220, 230, and 240. The grid contains several distinct patterns:

- Row 220:** Contains mostly black circles and squares, with a few brown circles and a single asterisk (*) appearing near the center.
- Row 230:** Features a large cluster of brown circles and squares in the first half of the grid, transitioning to red circles and squares in the second half. A small cluster of yellow circles is located in the bottom-left corner.
- Row 240:** Primarily consists of black circles and squares, with a few brown circles scattered across the middle section.

The overall pattern suggests a structured data set with a clear vertical separation between different regions, particularly around the column 180 mark.

Fabric: Aida 14, White
 220w X 245h Stitches
Size: 14 Count, 39.91w X 44.45h cm

Floss Used for Full Stitches:
