# The sky at night

Capture the bright lights of these big cities with our stylish silhouetted designs, perfect for the man in your life

You don't have to have experienced the fast-paced, busy streets of Monte Carlo and New York to recognise these breathtaking skylines. With buildings climbing to the clouds, these are the cities that never sleep, frequented by high flyers and kitted out with designer stores – a life of luxury we'd all love a taste of!

The masculine feel makes them a great gift for men in your life, and as each one is worked on 14-count black aida for maximum effect, this is definitely a project for you stitchers that love a challenge! Created using cross stitches and backstitch only in just a few thread shades, the designs themselves aren't tricky, it's the colour

Try black fabric

of the aida itself, making it harder to see the holes between the blocks. Our tip: stitch with a white cloth, like a towel or sheet, on your knee to help see the holes!

Your extra effort will be worth it – both for a night-time atmosphere, but also giving a beautiful border to make the designs really stand out. ➤

Jane Henderson

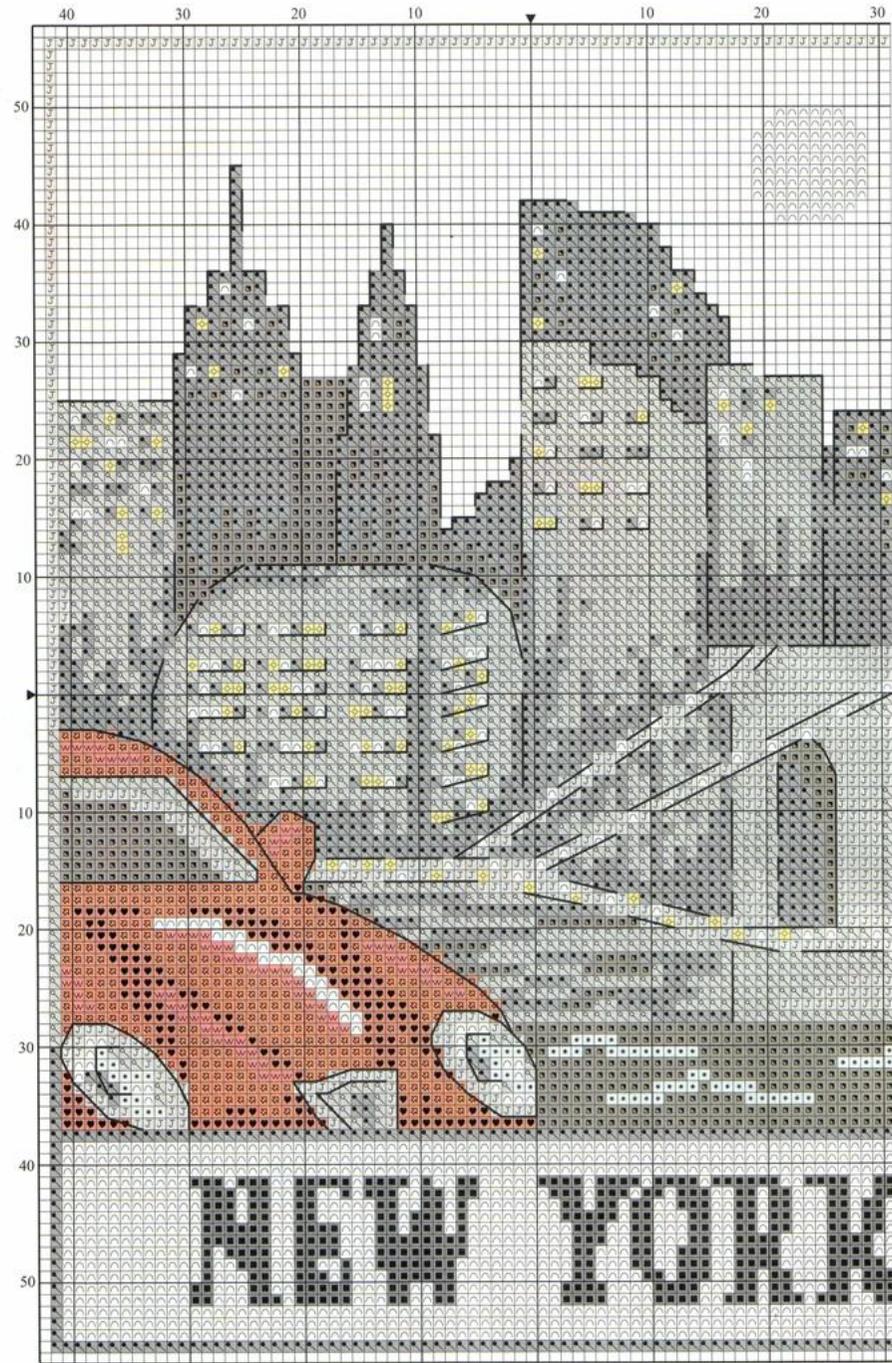

"Although I love designing bright, colourful charts, it's also fun to create something a bit more masculine. Each finished piece is so striking, I'd recommend giving it a go, even if you've never worked with dark fabric!"

### Yuana READER PANEL

“This is what I’ve been looking for as a gift for my son. For my children I like to stitch something that is everlasting. I prefer something that is not too childish for them to hang in their rooms as they get older. The designs are very elegant, with a touch of vintage, but also very modern at the same time.”
