

[illegible]

A large grid of 100 rows and 100 columns of small, colorful icons and symbols, organized into a 10x10 grid of 10x10 sub-grids. The grid is labeled with numbers 10, 20, 30, 40, 50, 60, 70, 80, 90, and 100 along the left and top edges. The icons are diverse, including geometric shapes, numbers, letters, and abstract patterns, all rendered in a variety of colors and sizes.

[illegible]

(15)

The figure displays a large grid of 1000 small images, arranged in 10 rows and 100 columns. The rows are labeled 140, 150, 160, 170, 180, and 190 on the left side. The columns are labeled 10, 20, 30, and 40 at the top. Each small image shows a different arrangement of colored dots (red, green, blue, yellow, black) on a black background, representing a specific configuration of a system. The configurations change systematically across the grid, likely representing a sequence of states or a search space.

(22)

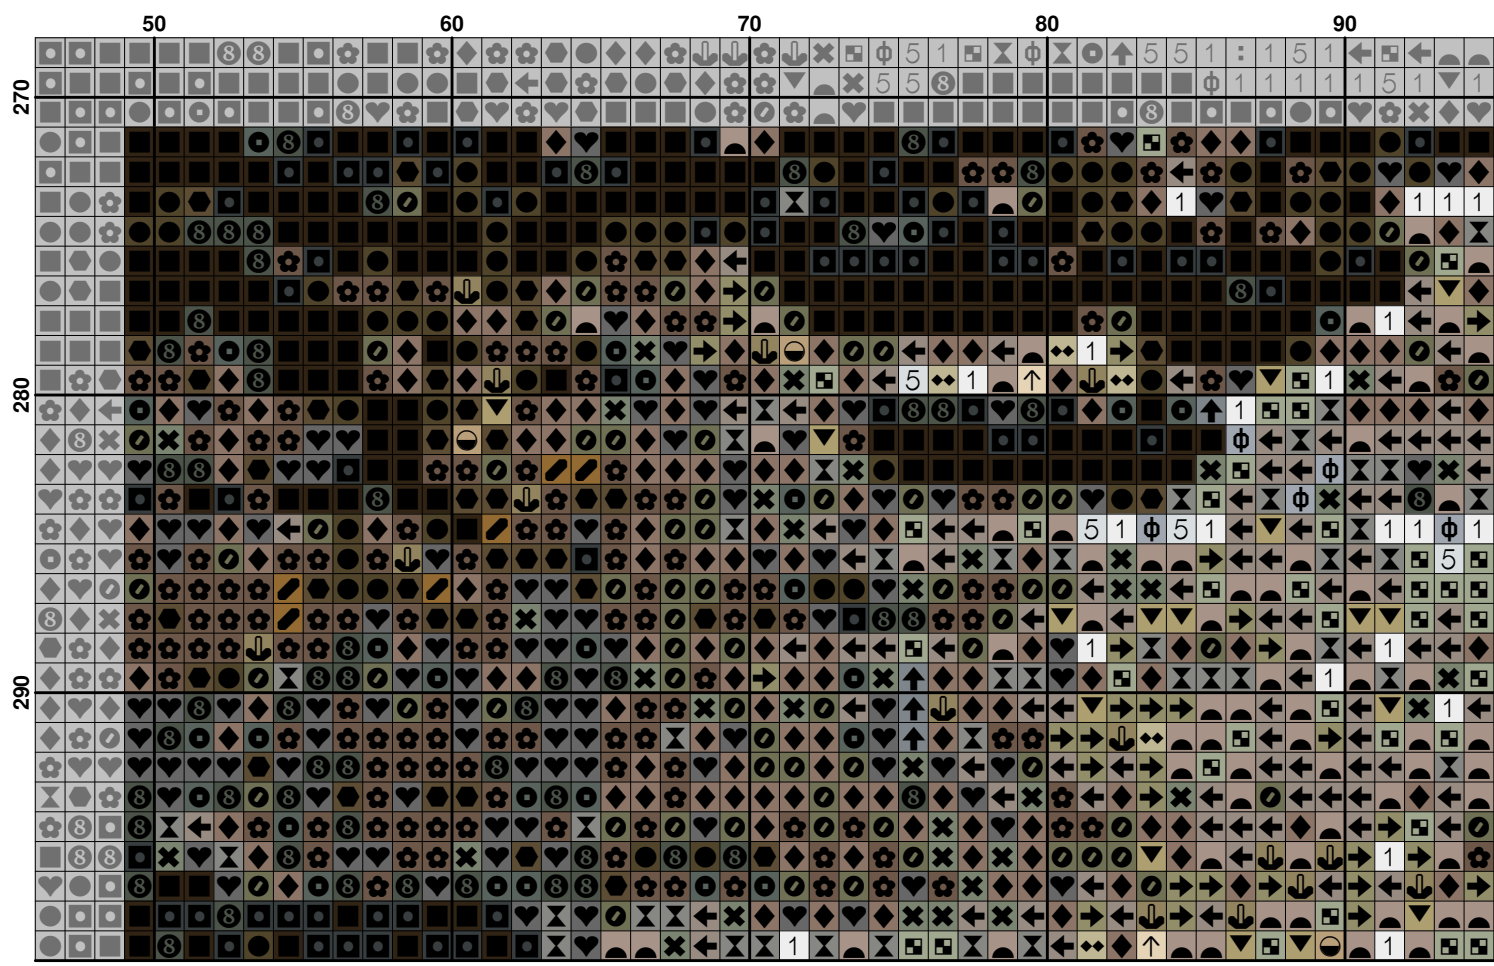

The figure displays a large grid of 280 rows and 100 columns, organized into seven horizontal sections of 40 rows each, labeled 210, 220, 230, 240, 250, 260, and 270 on the left. Each row contains a sequence of symbols, including numbers (1-9), mathematical operators (+, -, *, /, %, <, >, <=, >=), and various geometric shapes (squares, circles, triangles, diamonds, hexagons, octagons, stars, etc.). The symbols are arranged in a complex, repeating pattern across the grid.

The figure displays a 10x100 grid of small plots, totaling 1000 individual visual elements. The rows are indexed on the left from 210 to 270, and the columns are indexed at the top from 100 to 140. Each plot is a square containing a unique arrangement of black, white, and gray patterns. These patterns range from simple geometric shapes like lines and dots to more complex, interconnected structures that resemble cellular automata or abstract art. The overall effect is a dense, multi-layered visual texture that changes as the viewer's perspective shifts.
