A 60x60 grid of symbols representing a game board. The symbols include various shapes like circles, stars, squares, and arrows, as well as text characters like '\$', '?', 'b', 'w', '0', and '='. The grid is color-coded with shades of brown, grey, and blue. A large orange arrow points from the bottom right towards the center of the grid.

The image shows a 10x10 grid of symbols, likely representing a state space or algorithmic flowchart. The symbols include various letters (a, b, u, v, x, \$, 0, etc.), arrows (up, down, left, right), and other mathematical and logical operators. The grid is color-coded in a repeating pattern of light blue, light green, light red, and light yellow. The symbols are arranged in a way that suggests a structured search or a specific sequence of operations. The overall pattern is highly repetitive and organized.

The figure displays a 16x16 grid of symbols, likely representing a game board state, with coordinates ranging from 160 to 190 on both axes. The grid is divided into four quadrants by horizontal and vertical lines at x=210, y=220, x=230, and y=240. The symbols include various characters such as stars, circles, squares, arrows, and dollar signs, indicating different game pieces or states. The symbols are color-coded in shades of gray, brown, and black.
