[illegible]

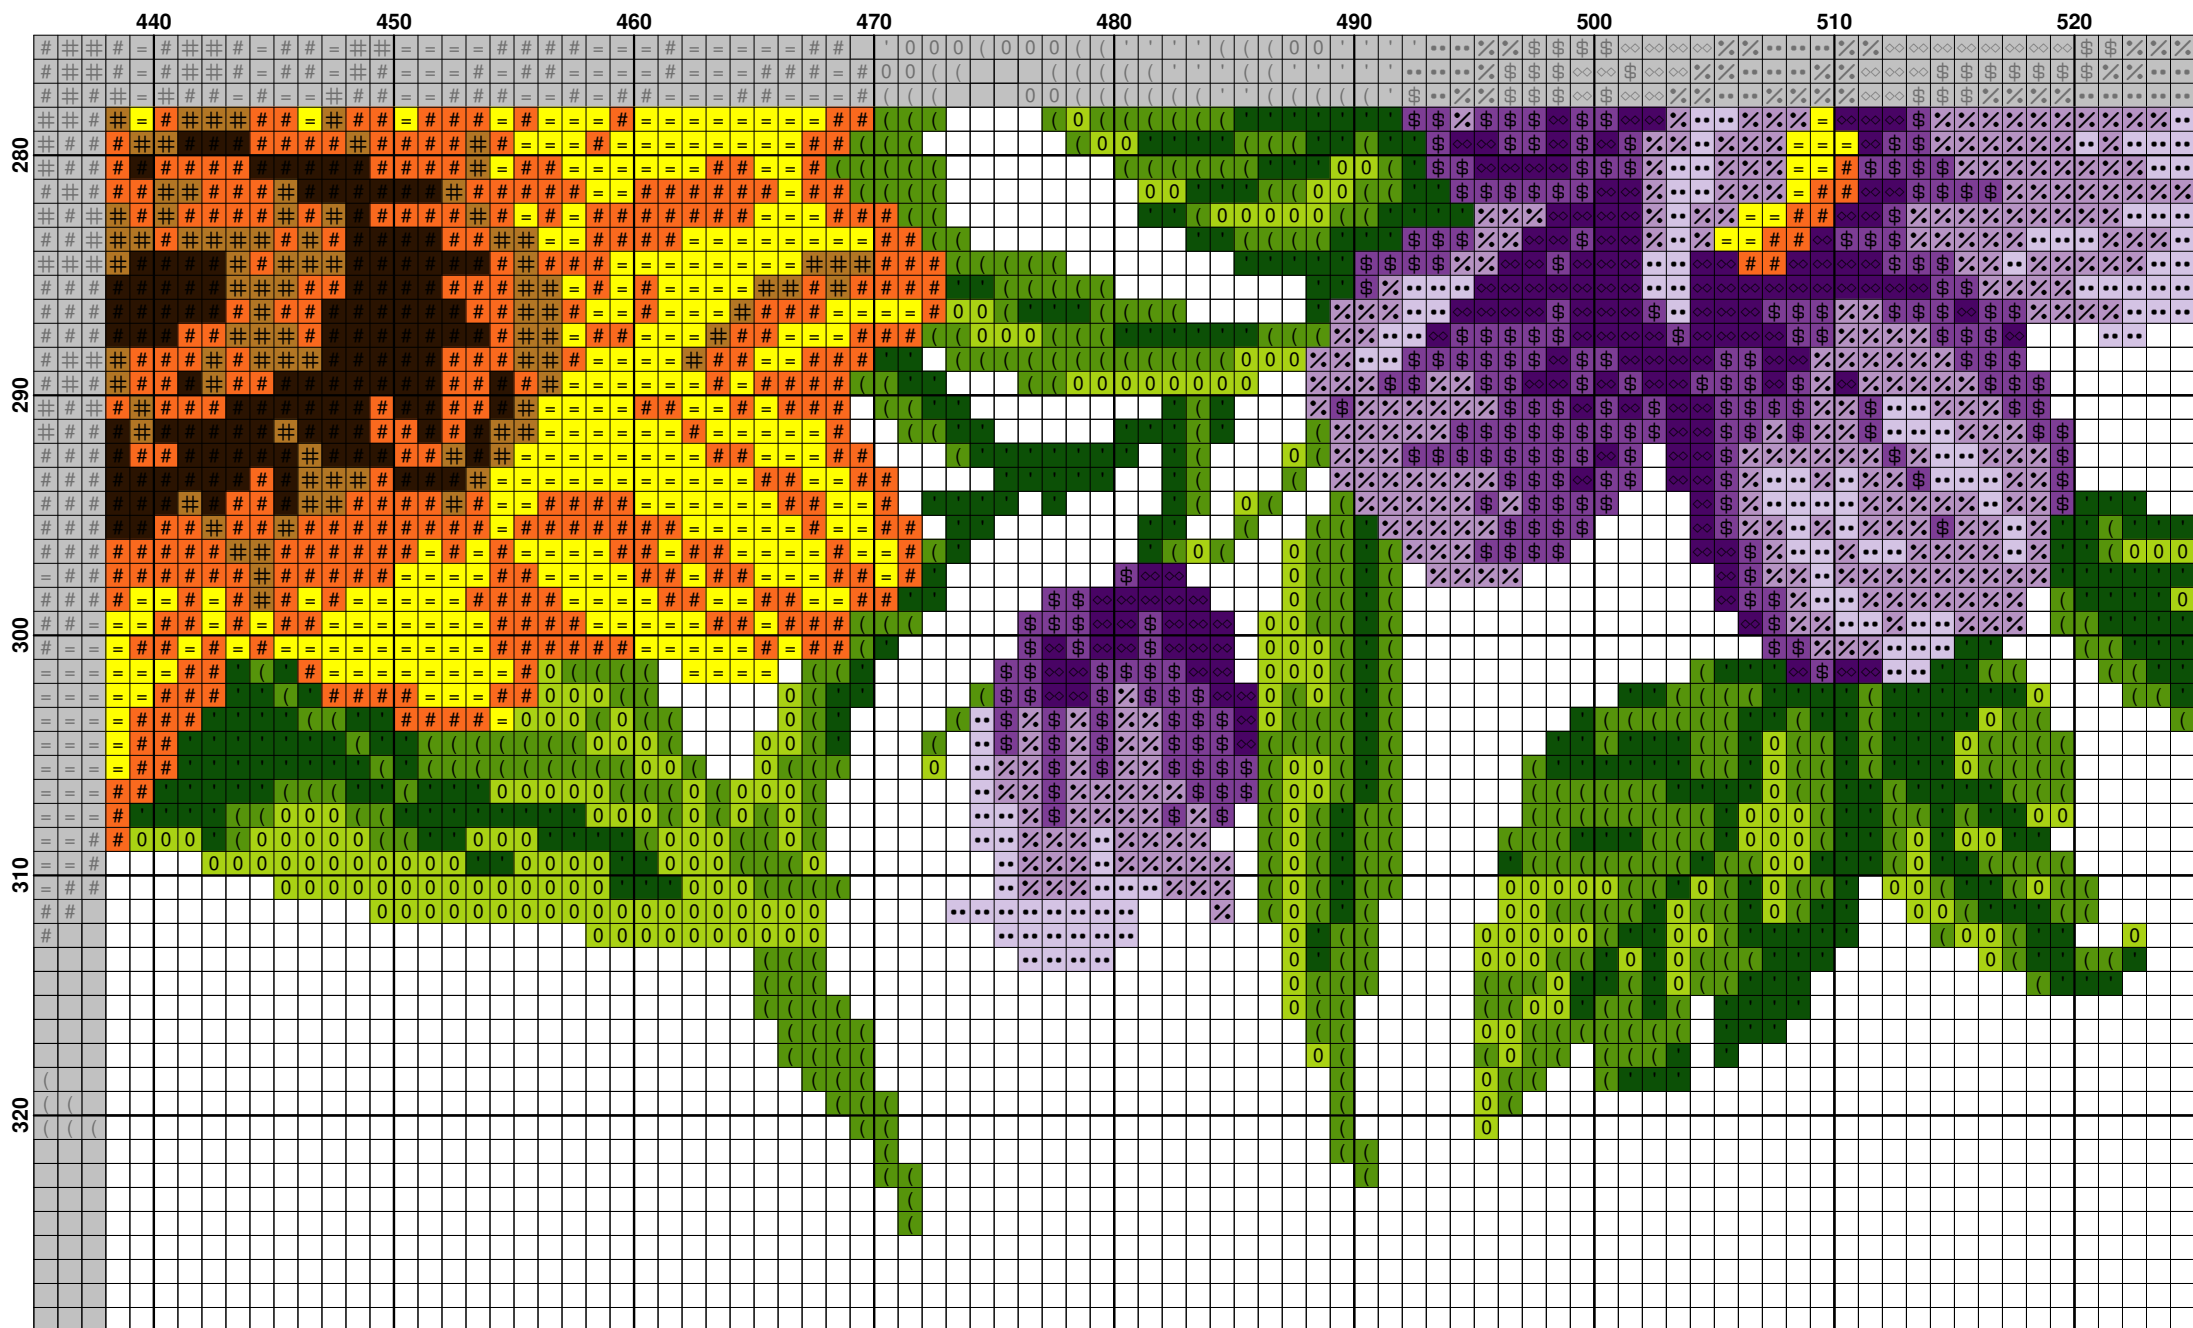

The image displays a 100x100 grid with a coordinate system. The horizontal axis (x-axis) is labeled from 270 to 350 in increments of 10. The vertical axis (y-axis) is labeled from 270 to 320 in increments of 10. The grid contains several distinct clusters of symbols and colors:

- Gray Area:** A large rectangular region in the top-left, spanning from x=270 to x=310 and y=270 to y=285. This area is filled with a light gray background.
- Blue Cluster:** A group of symbols located around the coordinates (275, 295). The symbols include 'N', '?', and '(', with some cells containing a blue background.
- Green Cluster:** A group of symbols located around the coordinates (330, 280). The symbols include '0', 'N', '?', and '(', with some cells containing a green background.
- Yellow Cluster:** A small group of symbols located at the bottom right, around the coordinates (350, 300). The symbols include '0' and '(', with some cells containing a yellow background.

The symbols are distributed across the grid, with some appearing in the gray area and others in the white area. The symbols include '0', 'N', '?', '(', and '*'.
