The figure displays a 140x30 grid visualization, likely representing a spatial-temporal process. The grid is organized into four horizontal sections, labeled 110, 120, 130, and 140 on the left side. The top three sections (110-130) show a progression from a mostly white grid to a predominantly black grid with some yellow and red highlights. The bottom section (140) shows a mostly black grid with some yellow and red highlights. The grid is composed of small squares, each containing a small icon or symbol. The icons are arranged in a grid pattern, with some squares containing a small 'X' or a small 'Y'.
